1. Introduction

The pressreviews module is the ideal module for your press reviews. It allows you to create a gallery of images pointing on a bigger image (for example the detail of a press article) or pointing to another website.

2. Installation

Install the module on the tab «Module» in the administration. After the installation, 3 elements are automatically created:

- The rewritten link in the tab preferences > SEO & URLs
- The configuration of the thumbnail size in the tab Modules > Modules. Then, click on the link «Configure» under the module name
- A new tab «Press review» which allows the handle the items

2.1. Configuration

After the module installation, we need to configure the thumbnails sizes for the gallery. To do that, you need to display the modules list. then, clic on the link Configure under the module name.
